OBJECTIVE

Detail-oriented and motivated web developer with hands-on experience in building web applications using **C#** , **Angular** , **Spring boot , JAVA** and **ASP.NET** technologies. Seeking an opportunity to contribute to a forward-thinking development team where I can apply my skills in both frontend and backend development to create impactful user experiences and continue growing as a full-stack web developer

EXPERIENCE

Human Resources Management System (HRMS)
Internship Project – Softsquare International

- Developed frontend features using **Angular** and backend services using **C# (.NET)**.
- Implemented assigned modules on time with version control using Git.
- Practiced code reviews and cross-team communication.

RAOT Support System
Internship Project – Softsquare International

- Maintained and added new features using **Spring Boot** and **JavaScript**.
- Worked on real-world bug fixes based on customer feedback.
- Contributed to an already launched and live project.

AI Durian Disease Detection – SCI TU Hackathon 2023
- Engineered an AI model to classify and detect durian diseases through image analysis
- Pitched the project and managed promotion via TikTok.
- Learned teamwork, idea brainstorming, and technical presentation skills.

University Request Form System
Thammasat University – 2021

- Designed and developed an online form system to handle administrative requests efficiently.
- Improved request tracking and response time for students and staff.
- Applied frontend and backend integration for seamless user interaction by **HTML, CSS Style Sheet**.

EDUCATION

THAMMASAT UNIVERSITY

- B.Sc. in Computer Science – Faculty of Science
- GPA: 3.18
- Graduated: 2024

ASSUMPTION COLLEGE SRIRACHA

- High School Diploma

TECH STACK

- **Frontend**: JavaScript (React, Angular), TypeScript, CSS, Bootstrap
- **Backend**: .NET (C#), Node.js, Java (Spring Boot), Python
- **Databases**: MySQL, PostgreSQL, Oracle
- **Tools**: Git, GitHub, VS Code, Visual Studio, Postman, DBeaver ,Docker ,Os command
- **Other Skills**: Unit Testing, Debugging, Communication, Git Collaboration, Algorithm Design, Problem Solving

ACHIEVEMENT

- Developed and delivered **Angular** and **C#** modules for the HRMS system, consistently **meeting sprint deadlines**.
- **Collaborated i**n a team of 5 developers, improving code quality through **Git-based code reviews**.
- Resolved **15+ bugs** in RAOT system, improving system stability and **client satisfaction**.
- **Developed new features** for a live **Spring Boot JAVA** system used by real clients.
